

SPEAKER'S BIO:

Jensine Reeder is a Data and Technology Manager at the United Way of Greenville County. She is also the founder of The Source Unlimited LLC, offering a plethora of services while maintaining optimum customer service. One of the services that Jensine offers is motivational speaking. Using her platform, she can be completely transparent while sharing her inspiring story of coming out of poverty. Jensine has had the pleasure of speaking at over 15 engagements ranging from small intimate settings to convention centers. Whether the engagement is big or small it is still an opportunity for her to inspire someone. Her inspiration comes from her children and she has provided a stable environment to ensure that they will have a great future.

In order to develop Jensine's passion for speaking and encouraging others she had to search within herself to find and perfect her gift. During that journey, she discovered five of her greatest strengths that completely sum up how she approaches any obstacle that is placed in front of her. Restorative, Connectedness, Positivity, Input, and Strategic are the strengths that she will quickly tell you, you need to be successful. Jensine's goal is to affect change in someone's life, one person at a time. "One of my greatest joys are to have bluebirds on my shoulders, and I want that for others as well!"
